

COSC 311 **Quiz #8** All Team Members: _____

Distributed: **3/30/10**
Due: **4/8/10** In or before class.

I have been recording several lectures for my classes this term: COSC 311, 341/342, and 445. Since they're mostly 'live', I know I have misspeaks and other errors in them. I would like to make an errata sheet for future viewers. This is a serendipitous "learning opportunity" for you.

Identify three errors in my lectures in any of this term's set of classes. Give topic, URL, time (from start) to nearest 5 seconds, and brief statement of the problem.

Use this format

<u>Course #</u>	<u>URL</u>	<u>Time</u>	<u>Problem</u>
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

At most three people per group. Everyone completely understands the errors.

There can be no more than one intersection between (name, error) between COSC 311 and COSC 341/342. I.e., you folks in both classes have to find **four errors total**.
