AN IDLE SESSION

Let’s use IDLE one final time to test your new function. Will it work as well as your earlier code?

```python
>>> def print_lol(the_list):
    for each_item in the_list:
        if isinstance(each_item, list):
            print_lol(each_item)
        else:
            print(each_item)
```

```python
>>> print_lol(movies)
The Holy Grail
1975
Terry Jones & Terry Gilliam
91
Graham Chapman
Michael Palin
John Cleese
Terry Gilliam
Eric Idle
Terry Jones
```

Invoke the function.

It works, too! The recursive function produces EXACTLY the same results as the earlier code.
