

COSC 311 AND COSC 341 AND COSC 342

FINAL “QUIZ”

Distributed: 13 April 2010

Due: 23 April 2010

Objectives

This “quiz” is intended to:

- (1) Give students experience in giving a computer science talk.
- (2) Give you the opportunity to have your TWO lowest quiz scores dropped.
- (3) Add to my library on on-line lectures.

Specification

A. Pick any topic that has been covered in this class (that I have not already uploaded a lecture on).

B. Record a 5 - 10 minute lecture, set at an academic level appropriate to your classmates.

C. Upload the lecture (needs to be in a common format) to any available webspace. If you do not have enough space on your people.emich.edu space, then let me know.

D. Email the entire class, including me, the URL of the lecture. I will forward links between COSC 341 and COSC 342.

If you are dreadfully shy, then you can email me alone.

Screen capture and recording software possibilities:

Screen Toaster: <http://www.screentoaster.com/>

Jing: <http://jingproject.com/>

See also the Wikipedia page:

http://en.wikipedia.org/wiki/Comparison_of_screencasting_software

Obviously, you cannot double dip your screencast for final quiz in both 34x and 311.

Grading based on:

Intelligible talk.

Can be useful to future COSC students.
